To our representatives:

The Houston Young Republicans emphatically and unequivocally support the endeavors of our conservative allies in the Log Cabin Republicans both in their petition to achieve coalition status within the party and in their long-sought effort to be permitted to purchase booth space at the biannual convention of the Republican Party of Texas.

The Log Cabin Republicans of Houston are some of the most active, passionate, and insightful grassroots activists working on behalf of conservative principles in our region. Indeed, they are regularly on the front-lines of area GOTV efforts when other Republican groups are nowhere to be found.

It is unacceptable for the leadership of our party to continue to hide behind a vague interpretation of an intentionally exclusionary, self-defined and self-enforced rule in order to continue to deny the accomplishments of these great conservatives.

The next Republican Party of Texas convention will take place this summer in Houston. Let's set a new precedent in our hometown and fully welcome our Log Cabin friends into the Grand Old Party.

With these sentiments in mind, we ask that you cast your votes and vocally advocate in support of our conservative allies in the Log Cabin Republicans at next week's meeting of the SREC.
